

Equature

RapidSOS Capture

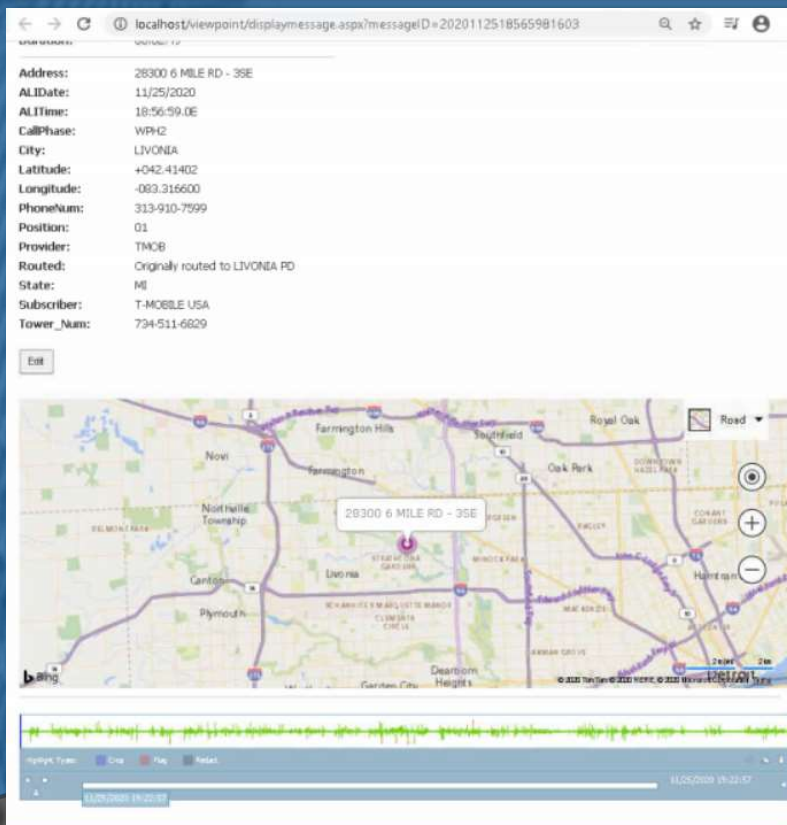

Equature RapidSOS Capture

allows agencies to give RapidSOS a memory by archiving its advanced data with the 911 interaction.

Easily Search & Retrieve

All RapidSOS data associated with a 911 record is searchable within the Equature platform. Easily search and retrieve call records by location, phone number, and more.

Unified Storage

Access RapidSOS location information along side all of your Next Generation 911 data flowing in and out of the PSAP.

Incident Recreation

Accurately recreate incidents using the advanced geolocation data provided by RapidSOS.

1

Advance

Advanced location above and beyond ANI/ALI.

2

Archive

Provides archived data even after its purged from the RapidSOS clearinghouse.

3

Automate

Eliminates the need to manually type in the smartphone number.

Equature Live Recall and Rapid SOS

Telecommunicators can verify additional detail directly from their console position without manually typing a phone number.
